GLADIOLUS BULBS

PRICE LIST, *descriptive*
1913

Chamberlain & Gage
SOUTH NATICK, MASS.

MONTAGUE CHAMBERLAIN
L. MERTON GAGE

MRS. FRANK PENDLETON, Jr.

☞ This truly magnificent Gladiolus is comparatively new and but little known, for though exhibited at the Massachusetts Horticultural Society's Show of 1909, where it was awarded a first-class certificate of merit, and exhibited again at Baltimore in 1911, where the American Gladiolus Society honored it with a certificate, very few of the bulbs have been sold and none of the blooms were placed on the market until the season of 1912, when they were in large demand by the New York Florists.

☞ The coloring of the flowers is exceptionally beautiful,— a rich, soft pink, shading to a darker tint and in striking contrast with the brilliant carmine patch on the minor petal. Such coloring does not produce the delicate, subtle beauty that is the charm of *America*, nor the majestic beauty of *Rajah*, nor the poetic, winsome beauty of *Spring Song* and *Myrtle*, nor the quiet stateliness of *Daisy Rand*. But the *Pendleton* has a beauty all its own; a brilliant, dashing, compelling beauty that makes you stop and admire.

☞ "In color it is one of the richest flowers ever produced on a gladiolus, a lovely flushed salmon pink, with brilliant carmine blotches, reminding one of some of the best fancy pelargoniums."

—*"Horticulture," Boston.*

☞ "Sample blooms of Gladiolus, Mrs. Frank Pendleton, Jr., have been received at this office. The flowers of this variety are very large, the color vivid, attractive and distinct, and the blooms have the merit of not being crowded too closely on the stalk. Mrs. Frank Pendleton, Jr., is one of the promising new varieties."

—*Florists' Exchange, New York.*

☞ "Mrs. Pendleton is in bloom, has a five-foot stalk with 20 flowers and a smaller offshoot with 12. It is simply magnificent."

—*H. Youell, Fin. Secretary American Gladiolus Society.*

PRICE 60 CENTS EACH ∴ \$6.00 PER DOZEN

SOUTH NATICK, January 1, 1913.

The named varieties of Gladioli which we are offering in this pamphlet represent the best productions of Europe and of this country. All have been grown on our own trial grounds and can be recommended as meritorious. Those of inferior quality — those which lack vigor, as well as those which lack distinction in color and form — have been omitted.

Cultural Directions

Gladioli can be planted at any time after the frost is out of the ground, say from the middle of April, in this latitude, to the middle of May or even later. We have had very good results when planting the bulbs during the first ten days of June, and, unless the locality is visited by very early frosts, flowers will open before the frost comes if the bulbs are not put into the ground before the first of July. A few varieties will bloom in seventy-five to eighty days from date of planting, but most sorts require about ninety days.

Any fairly rich garden soil will be found suitable, or soil that will grow corn or potatoes, but if the soil is not fertile it may be enriched with barn manure, or with any complete fertilizer. A good potato phosphate will be found serviceable, or a combination of basic slag and potash.

For top dressing, after the plants are above the ground, hardwood ashes and ground bone will be effective. When buds begin to show color an application of liquid manure about once a week will improve the blooms. The plants require plenty of water and plenty of sunshine.

The depth at which the bulbs should be planted has occasioned considerable controversy, but we have found that a depth of four to six inches gives good results. Plant about three or four inches apart.

In the autumn the bulbs should be dug and dried thoroughly, and then stored in a cool place, where frost will not reach them.

Novelties

The following-named varieties are of recent production.

ALICE CHAMBERLAIN (KUNDERD) (30)

Dark maroon, of rich velvety texture. Flowers of good size. Plant vigorous, spike straight. An unusually attractive variety.
15c. each. \$1.50 per doz.

AMARYLLIS (KUNDERD)

Blood red, of a brilliant tint. Spike of medium height. Flowers large and formed very like an Amaryllis. One of the best of the reds.
75c. each.

CHERRY KING (KUNDERD)

Cherry-red, of a rich, deep tint, with a blotch of still deeper tint on the lower petals. Flowers of medium size, but of a graceful form. Four to six out at one time. A very attractive sort.
35c. each.

CLARICE (KUNDERD) (23)

Deep rose pink flaked with a deeper tint. Flowers large and well opened; four or five open at one time. Spike straight and strong. Plant vigorous.
50c. each.

DAISY RAND (KUNDERD) (92)

Ivory white ground color, so heavily splashed with bright rosy pink and suffused with a paler tint as to give the appearance of a pink flower. The lower petals have a patch of buff pencilled with pink.

Flowers large and open, four to six in bloom at one time. They are very beautiful, of the quiet, stately, refined beauty of the true aristocrat and must be classed among the Queens of the Garden. The flowers have never been exhibited but are sure to be much admired. One of the best of the new varieties.
50c. each.

DORENE (KUNDERD)

Usually a solid white, though sometimes the petals are slightly flushed with a delicate tint of pink. The flowers are of medium size, and six to eight appear at one time.
15c. each. \$1.50 per doz.

EL CAPITAN (Syn: Tallest Sulphur) (KUNDERD)

Bright sulphur yellow, with slight pencilling of red on the lower petals. Flowers large and well opened; four to six out at one time. Spike tall — four feet and over — strong and straight. Leaves wide; entire plant vigorous.

50c. each.

FAËRIE (Syn: Cream Pink) (KUNDERD)

This variety displays a combination of rich creamy tint with soft pink of most delicate tone, producing an artistic and beautiful effect. The spike is tall and straight, the blossoms large and well open, and several appear at one time. One of the coming favorites.

25c. each. \$2.50 per doz.

GAIETY (Syn: Pigeon, Bird of Paradise) (KUNDERD)

Bright salmon pink, suffused and spotted with a deeper tint; lower petals with a blotch of creamy white, pencilled with rich pink. Flowers large. Spike tall and straight. Exceptionally attractive.

25c. each.

GOLDEN KING (BLACK)

Bright golden yellow with an intense crimson patch on the lower petal. The flowers are large and well expanded, and six to eight are usually open at one time, making a highly striking appearance. It is one of the very best of the yellows.

20c. each. \$2.00 per doz.

GOVERNOR HANLEY (KUNDERD)

Rich cardinal, a little deeper in the throat. Flowers medium size; four to six out at one time. A fine sort for cutting.

25c. each.

IDA VAN (KUNDERD)

Orange-red, of brilliant tint. Flowers large and wide open. Six to eight out at one time. Spike straight and strong. Showy, attractive and beautiful.

25c. each. \$2.50 per doz.

LILLIAN MORRISSEY (KUNDERD) (20)

Bright cherry-red of a rich tint. Flowers of medium size. Spike tall and straight.

10c. each. \$1.00 per doz.

MARY BANCROFT (KUNDERD)

Creamy white ground color, with band of rosy pink through center of petal. Outside of petals of deeper tint. Lower petals with blotch of rich crimson on a ground of lemon yellow.

Flowers large and well expanded — four to six open at one time.

An extremely showy and handsome variety. One of the best of the recent productions.

60c. each.

MARY FENNEL (Syn: Charlotte, Giant Lavender) (KUNDERD)

Deep lavender shading to a paler tint; lower petals primrose-yellow with pencillings of lavender.

Flowers large and well expanded — three and four open at one time. Stalk tall and straight. Unusual and attractive.

There is no other gladiolus like it. It is beautiful and refined, and stately as a duchess, and will be prized by those who admire the patricians of the garden.

25c. each. \$2.50 per doz.

MONADNOCK (KUNDERD)

Buds bright red; the open flowers of dark rich pink, shading to darker at the tips of the petals. Deep crimson patch on lower petals. Throat slightly pencilled with pale yellow. Flowers large, well expanded, and of graceful form, sixteen to eighteen on a spike. **New.**

60c. each.

MRS. MONTAGUE CHAMBERLAIN (KUNDERD)

Snowy white, the lower petal with slight line of crimson.

Flowers large and lily shaped. Plant very vigorous. Leaves broad. Stalk four to five feet high — straight and stately. Usually three flower-spikes on each stalk.

A particularly desirable variety for the garden, coming into bloom early and lasting till late in the season.

\$1.00 each.

MRS. L. MERTON GAGE (KUNDERD) (13)

Glistening white, with an occasional suffusion of delicate pink; lower petals bear a dainty stippling of pale lilac. Anthers purplish blue. Flowers of good size and graceful form. Spike straight and strong; blooms early.

One of the best of the whites.

\$1.00 each.

MRS. A. E. KUNDERD (KUNDERD)

White, slightly suffused with pink and with fine red lines in the throat. Flowers large, well formed, and of good substance.

30c. each.

MRS. MALCOLM MACKAY (Syn: Improved 1900) (KUNDERD)

Cherry-red of intense tint, with a large patch of snowy white on the lower petals. Flower of good size, well expanded, and of graceful form — five to eight in bloom at one time. Spike tall, straight, and strong.

Somewhat similar to Contrast and Margaret, but the red is brighter and the white purer, and together they produce a more attractive blossom than any of the several varieties that wear these strongly contrasted colors.

Especially effective in the garden, yet fine for cutting.

50c. each.

MRS. G. W. MOULTON (KUNDERD)

Dark red of rich tint with splashes of a darker tint on the lower petals. Flowers large. Spike straight and tall.

A capital variety for garden effect and grand for cutting.
50c. each.

MRS. FRANK PENDLETON, JR. (KUNDERD)

Bright rose pink, shading to a deeper tint toward the center of the petals, the lower petals blotched with rich carmine.

Flowers large, well opened, and of graceful form; spike straight and strong; plant vigorous.

60c. each. **\$6.00** per doz.

MYRTLE (Syn: **Soft Pink**) (KUNDERD)

Tender and delicate rose pink, the most beautiful pink yet produced in a gladiolus.

Flowers of good size and graceful form. Four to six out at one time.

Blooms early. Capital for forcing.

Awarded a silver medal by the Massachusetts Horticultural Society in 1912.

60c. each.

PREMIERE (KUNDERD) (29)

Creamy white, faintly suffused with soft crimson (on some spikes the tint is deeper); the lower petals bear a crimson blotch. The outsides of the petals are splashed with pale cerise. Effective and beautiful. Spike three to four feet high; twelve to sixteen blossoms on each spike, and six to eight open at one time.

Plant vigorous, foliage robust.

Blooms early — seventy-three to seventy-five days from date of planting.

35c. each.

PRIDE OF GOSHEN (KUNDERD)

Bright salmon pink. Flowers very large and well opened. Petals heavily ruffled. Plant unusually tall and vigorous. General appearance imposing. **New.**

25c. each.

PRINCEPINE (KIRCHOFF)

Bright red with a white throat. Flowers large and very attractive. **New.**

50c. each. **\$5.00** per doz.

PRINCESS PATRICIA (43) (KUNDERD)

Soft rosy pink; lower petals tinged with pale yellow and bearing hair lines of deep pink. The whole flower sparkles with opalescent luster. Usually six blooms are open at one time on a spike that is straight and strong.

The general appearance of the flower is subtle and patrician. A vigorous spike with dainty coloring.

One of the best of this season's novelties.

\$1.00 each.

RAJAH (KUNDERD)

Deep, rich red, suffused with a darker tint. Flowers of immense size, four to five inches across — four to six open at one time. Plant tall and vigorous.

The best dark red yet produced.

Awarded a silver medal by the Massachusetts Horticultural Society, Boston, August 19, 1911.

\$2.00 each.

RICHMOND (KUNDERD)

Rich rosy crimson, not unlike a Richmond rose. Exceptionally beautiful.

The flowers are large and on many spikes, each flower has nine or twelve petals — six to eight blossoms out at one time.

A grand variety for out-of-door effect.

50c. each.

SPRING SONG (KUNDERD) (12)

Primrose yellow, suffused with soft, rosy pink; lower petals with blotch of canary yellow, pencilled with rich pink; throat crimson.

Flowers of good size and graceful form — five to six out at one time. Spike straight and strong; plant vigorous.

One of the most beautiful of the new varieties, of a soft, delicate, poetic beauty that will make it a favorite with those who admire refinement in flowers. Excellent for garden effect and for cutting.

50c. each.

WACHUSETTS (KUNDERD) (5)

Buds deep rich apricot; open flower pale apricot suffused with soft pink, throat and lower petals pencilled with a deeper tint of pink.

Flowers large, of velvety substance, and graceful form, refined and stately — five out at one time.

50c. each.

General List

ABBÉ ROUCOURT (VILMORIN)

Deep crimson with pencillings of blood red on the lower petals. Flowers of exceptionally large size.

10c. each. **\$1.00** per doz.

AMERICA (BANNING)

Soft flesh pink, tinted with lavender. Flowers large and wide open. Several in bloom at one time. Especially beautiful and dainty. Generally considered the most beautiful gladiolus yet produced. Exceedingly popular. Plant vigorous. Spike straight and strong.

GEORGE PAUL (Syn: Harvard) (LEMOINE)

Deep crimson, slightly stained with yellow and spotted with purple. Large, open flowers.

10c. each. **\$1.00** per doz.

GLORY ((KUNDERD)

The opening buds are of a soft, creamy tint, edged with pink, but as the blossoms expand the ground color changes to a rich ivory white, suffused with pale lavender, which is deeper on the edges. The lower petals are buffish, with a pale crimson stripe through the center; the throat is pencilled with buff and crimson. The spike is straight and strong and bears twelve to twenty blossoms, which are large and of graceful form. The petals are heavily "ruffled," giving the flower a peculiar soft and beautiful effect.

This is the variety that made Kunderd famous. It was introduced two years ago, and was awarded certificates of merit at Rochester, Boston, and Baltimore.

25c. each. **\$2.50** per doz.

GOLDEN QUEEN (STEWART)

Creamy buff with blotch of carmine. Flowers large, open, and of good substance.

20c. each. **\$2.00** per doz.
